

Issue #15

March 21, 2024

Dear valued member:

Bargaining with SAHO took place Tuesday, Wednesday, and Thursday this week. Discussions between the parties were civil; however, the process has been slow and less productive than the previous session. While our bargaining committee continues to be constructive in our approach, SAHO continues to push their agenda, which has slowed the bargaining process.

We continue to advocate for your priorities. We are focussed on improving terms and conditions of employment to address retention concerns as well address your concerns with working short.

We have upcoming bargaining dates on April 30, May 1, and May 2.
